

Summary of “Coming Out, The Road to Unconditional Love”

“**Coming Out, The Road to Unconditional Love**” is about coming out as a gay man or lesbian woman, and the challenges presented for **everyone** involved in this process.

The book is based upon Kevin Lewis' work as a life coach. He's helped hundreds of families through this difficult process with rational compassion. His method includes:

1. Defining the responsibilities of all involved.
2. Understanding what needs to be addressed.
3. Providing the tools necessary to progress toward healing.

The goal is to heal everyone from the dogmatic teachings of our times; with no judgment of anyone because of where they are. There is no need to lay blame-- simply understand the place they are today with the intent of moving into the place of healing and unconditional love.
